Applicant is requesting an easement under the Access Road Policy to access private lands they purchased. The easement would utilize existing road segments with some minor relocation to improve alignments and new construction of less than 200 feet to reach a portion of the private lands at a reasonable grade. This application has been on hold since early 2006 due to the revisions to the Access Road Policy. Applicant has no plans to further subdivide the property and, if in the future this changes, they will be subject to the requirement of a Road User's Association and payment of the 1% conveyance fee for each lot created. There is no opportunity for reciprocating access with this applicant. The state land involved has legal access through a public county road that continues through the state tract. The existing roads applied for in this application are segments off of the county road. The Department recommends approval.
